DETAILED ACTION

1. Claims 1-57 are present for examination.
2. Claims 1-57 are rejected.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 11/18/2003 was filed.

Accordingly, the information disclosure statement is being considered by the examiner.

However, the examiner requests for an explanation of the relevancy of the submitted "Mast Test Plan" document to the applicant's invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 16 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding Claims 1, 16 and 28, the term "test plan listing" in claims 1, 16 and 28 is a relative term which renders the claim indefinite. The term "test plan listing" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

For the examining purpose, the examiner will treat the term "test plan listing" as the list contained within the test plan document.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
